## Profile

---

- I am a motivated fourth-year computer science student with a robust passion for technology and a sincere desire to leverage my technical skills in a practical, real-world context. I am eager to contribute my expertise to a professional setting and actively seek opportunities to apply my knowledge in a business environment.
- Up until my sixth semester, I have maintained a commendable CG PA of 7.82, reflecting my dedication to academic excellence.

## Projects

---

### Notepad Clone [↗](#)

- Notepad is a straightforward text editor designed for the Windows platform .
- It is built using Core Java technologies, specifically utilizing Swing and AWT frameworks, and developed within the Net Beans integrated development environment (IDE) .

### Space Invaders 2.O [↗](#)

- Develop a dynamic space-themed game using JavaScript, where I implemented key player functionalities, including movements and animations for the robotic spaceship and for the enemies .
- Designed and implemented diverse enemy types (Beetlemorph, Rhinomorph, and Boss) with increasing waves, and integrated projectile and laser classes for player attacks, showcasing attention to detail in game mechanics and user engagement.

### Portfolio Website [↗](#)

- Designed and developed a personal portfolio website using React to showcase my skills and projects .
- Utilized CSS3 to build a responsive website, incorporating modern packages such as "@emailjs/browser" , "@iconscout/react-unicons" , "framer-motion" , "react-scroll" and "swiper" .

## Skills
